Sponsorship Categories: Sponsorship in this scheme can be in three categories based on orders per time. The number of daily orders will be decided by the marketing team attached to a voucher sponsor based on their sales capability. Sponsorship categories are N25 000, N50 000 and N100 000. Voucher orders on the website will attract 10% discount as addition to order. The sponsor will get 5% profit per order and the retailers will get 5% gains.

Duration of Sponsorship: Voucher sponsorship will prevail for as long as the marketing team remains in session, but will wind down once they achieve the seminar target. Each site has to train minimum of 3000 seminar attendees within a maximum period of six months. Secondly, each team is expected to attain daily voucher sales target of N1.0 million as requirements for the freelance marketer to qualify for the N2.0m voucher dealership deal.

Advantages of Participation: Participation in the Voucher Sponsorship Scheme provides opportunity to trade with financial resources and get over 100% monthly returns. In this scheme, the market is created and sponsor's money works for them with little risk. The participants have absolute control over their funds and will not be involved in direct sales.

The voucher sponsorship scheme will be assisted by other schemes on the programme to drive sales and consumption. The participants can readily register as sub dealer or main dealer whenever the dealership regime comes running on the programme.

Operational methodologies: Shortlisted voucher sponsors will be attached to accredited participants in the freelance marketing scheme. However, in the absence of any team in their vicinity, they could be assisted to establish a marketing team to serve their environment.

The sponsors will place orders directly from their web accounts and transmit the vouchers to the marketing team. The marketing team is designed to create a network of demand for the consumption and usage of the vouchers. Remittances will be made by the freelance marketing team immediately after sales for the voucher sponsor to place new orders.

Usage of Finitema Voucher: Finitema Recharge Voucher is the main payment system on the programme. The voucher disconnects this platform from banking platforms to secure all transactions. The voucher is an instrument for online shopping, text messaging and for bidding to make more money on this programme. The usage to make more money, particularly on modified bid system, will be demonstrated during the seminars.

Source of Finitema Voucher: The voucher is available and printable from the website and will generate great earnings for voucher sponsors, main dealers, sub dealers and retailers nationwide. Shortly, the voucher will be obtainable from recharge card sellers nationwide.

How to Earn on Finitema: Finitema programme is an expanded e-commerce platform designed to boost transactions. There are three strategic ways to earn on this programme. Thus, whenever a car dealer sells a car for N1.0m and makes withdrawal from their web account, you get 2% or N20 000 as commission or referral fee.

The second way is 5% hosting fee. The company will host assets on your account page based on the number of downline. Thus, when a car is sold for N1.0m on your account page as showroom, 5% or N50 000 is transferred to the income account as hosting fee. The third way to earn is through the personal activities of individuals on the programme.

Collaboration on Freelance Marketing Scheme: FMS is a marketing programme designed to yield over N100 000 monthly allowances. Successful execution of the tasks enables a participant to secure a dealership deal on the programme.
